1. **Introduction:**

We realized that there are many physically handicapped and autistic children are living around us. Recent survey shows 7.1% of the population is now suffering from all kinds of Neuro Developmental Disability (NDD) & Autism in our country and we couldn't be silent. The treatments of Autistic Children are not like one day medicine. It takes one or two year to recover an Autistic Child and to fit in the society.

To achieve this they need regular Occupational Therapy, Speech & Language Therapy and Physiotherapy. Thus they would have returned to a much healthier normal life. "Alokito Poth" (Enlightened Path) is an organization where we provide these therapies fully free to the poor autistic and disable children from January 2019. Otherwise they had to pass their lives in Begging or house arrest!

Mission

Our aim is to make the physically challenged and autistic children fit to suit in the society. Let the lives of the children with disabilities and autism shine in the light of our services.

Legal Status

Alokito Poth (Enlightened Path) is an organization registered by the Social Services Directorate of the Ministry of Social Welfare of the Government of Bangladesh, whose registration No is Dha- 09756 and Serial No - 0088310.

2. **About Us:**

We are a group of people from diverse background that include Retired Squadron Leader from Bangladesh Air Force, College Professors,

Businessmen and Students. We are here to support our lovely children with disability and autism regardless of cast, creed, religion and belief.

3. **Our Services:**

We offer services at free of cost that include Occupational Therapy, Speech & Language Therapy and Physiotherapy to physically challenged Children with disabilities and autism with our trained and skilled staff members. We are also providing Assistive Device to the handicapped children in need. Rehabilitation is our extended program to integrate physically challenged children in the society. Market driven skills and employability of adult autistic children in the form of self-employment and formal employment are also one of priority interventions to economically empower adult autistic children, so that they can augment family income.

Recently we have started education services for them at free of cost.

4. **Impact Stories:**

It is an incident from January 2018. We were passing by a slum adjacent to the Uttara Sector 12 of Dhaka. We saw an 11-year-old child tied to an electric pole. And some other kids are messing around and humiliating this little kid. Even they are spitting. We were surprised! Why would that be?

After untying the child's handcuffs, we found out that he is an autistic child (special child). His fault is that he doesn't get along with everyone as easily as the other kids do. His mother works as a cook at a rice hotel across the street. The boy's father died in a road accident. He is tied to an electric pole because he disturbs.

There are many poorer children with autism who require regular and long-term treatment to bring them back to a healthy, normal life. This is very expensive. If you go to a commercial institution, it takes about 25 to 30 thousand taka per month for a child and treatment is required for 1 to 2 years. It is sad but true that it is not possible for very poor parents to raise this money. They are so poor that they are not even able to provide three meals a day.

10. Current Capacity:

Generally, lower and middle class families cannot afford the cost of such a long-term treatment resulting many of physically challenged and autistic children around us being deprived of a better life. Our endeavor is to make them fit to suit in the society. Many physically handicapped and autistic children are visiting our institution and receiving treatments. Many of parents have requested for expanding our services in other locations also.

At present we are providing treatments support to 52 autistic children with Occupational Therapy, Speech & Language Therapy & Physiotherapy. We are providing 21 sessions of therapies daily to these children. These 52 autistic children are getting treatments in every alternative day. We provide in an average 9,500 plus Therapeutic Treatments Sessions in each year to the Poor Autistic Children.

Alokito Poth gets to impact 1000 parents and 500 children by the next 2 years, the parents get to learn about autism as their children get free expert therapy which improves their health. As a result of the empowerment that we give to the parents they get Independence to enable them to take care of their children with autism. The children also get to grow into adulthood and be able to engage in the normal day to day activities and be productive in society despite having autism.

Existing capacity is not enough to meet up the growing needs of children with disability and autism due to scarcity of resources. Organization has a plan to grow and increase services through building partnership with institutional donors, philanthropies, corporate, individual and community engagement.

11. Significant Achievements:

A good number of physically challenged children with disability and autism recovered and integrated into the society by our continuous efforts. Over the year 2023 we provided in and over 9500 sessions of Occupational Therapy, Speech & Language Therapy and Physiotherapy to these children in need. We brought back 95 special children to a normal life by 2023. Now they have been mainstreamed in the family and society.

Year	Treatment Sessions Given (OT, SLT & PT)	Total Children	Children Under Treatments	Recover
2019	6500	35	35	19
2020	8500	51	42	21
2021	9000	114	42	10
2022	9000	147	42	20
2023	9500	187	51	25
2024	10000 (Targeted)	194	52	30 (Targeted)

We could bring 32 special children in our Free Education project. We are also providing foodstuffs to 71 families living below the poverty level. Sad but very true is that it is not possible for these very poor parents to arrange the basic needs. They are so poor that they can't even afford three meals a day.

12. Treatment & Education Budget for One Autistic Children:

Generally It costs Taka 21,000 per month to provide medical services to such an autistic child completely free of cost and to keep him / her educated. The parent of the Autistic Children knows very well that in the commercial institute it costs more than 45,000 Taka per month for this service. It takes more than one year to recover an Autistic Child. At this cost a child is given free occupational therapy, speech and language therapy and physiotherapy every day. At the same time he was provided with education and aids.

Three years of successful journey is continued From 'Alokito Poth'

Industry desk : One of the great charitable organizations 'Alokito Poth' is stepping their successful journey into 3rd year at 5th January, 2021. 'Alokito Poth' works with disabled & autistic children and fights against disability. The main focus of 'Alokito Poth' is ensuring well-being and comfortable life leading skills for children with autism & other disabilities.

Information about 'Alokito Poth':

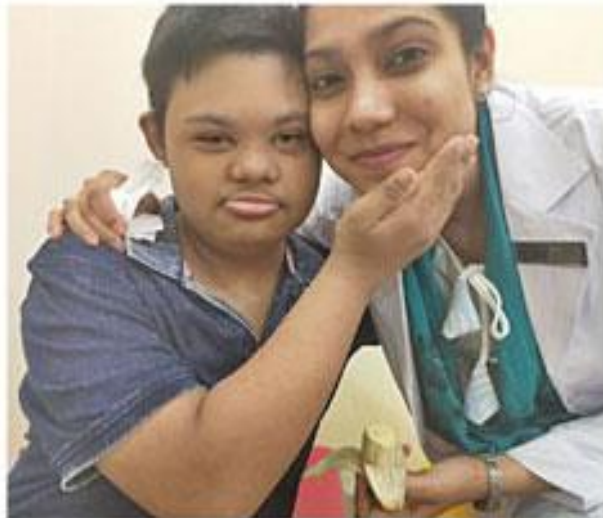

'Alokito Poth' is a charitable organization registered by the Social Services Directorate of the Ministry of Social Welfare of the Government of Bangladesh, whose registration no. is- DHA-09756 and Serial no. is-0088310. With the combination of hard work of teachers, students, government officers, doctors; 'Alokito Poth' got the organizational status at 5th January, 2019. But, the background history of 'Alokito Poth' was very simple. This organization was started to provide free treatment service and medicine to disable children of rural area and slum, from March, 2016. In this way, 'Alokito Poth' provided services for 2 years successfully and finally it was named by 'Alokito Poth' (in English- Enlightened Path) at 2019.

Disable & Autistic children and 'Alokito Poth': From different research, it is known that, about 10% people in the world live with disabilities and about 7.1% of those are child. In Bangladesh, child disability is increased day by day. 'Alokito Poth' works with disability and its main mission is to recover the disability as much as possible and also to ensure well-being & comfortable

living skills of disable children.

Free of cost treatment services always:

To ensure proper treatment facilities to rural child; 'Alokito Poth' is self-promised about that. For that, from 2016 to till now, 'Alokito Poth' provides free treatment services (Occupational Therapy, Speech & Language Therapy and Physiotherapy) and daily living skills training- to disable child (like- child with Autism, ADHD, Down Syndrome, Cerebral Palsy, Intellectual

Disability, Behavioral Disorder, Multiple Disabilities and all other disabilities)

Future Plan:

'Alokito Poth' is self-promised to increase the service facilities more and more whole over the country by promoting branches. At present 'Alokito Poth' stands on the process to achieve NGO Bureau registration. 'Alokito Poth' always stands beside the disable children of our country and works to ensure inclusion living and inclusive society also. Happy 3rd founding anniversary of 'Alokito Poth' would be grateful. At present, our only branch is located at Uttara, Dhaka.

14. **Donation and Support Information:**

Alokito Poth is a non-profitable organization where we work for the physically challenged children with disability and autism. We work specifically to develop the disabled and autistic children's talents through healthy relaxation and proper treatments. As it is a non-profitable organization so it has no source of income but requires resources to manage the organization and continue services for the children. Alokito Poth appreciates your financial support. With your little support, we will make the World Better for the children with disability and autism. These children will get a new life back. They will at least be mainstreamed in the society. We are calling on you to contact us for helping us to support these children. Thank you.

Your little effort & will may thrive these Autistic Children to a better future.
